

### **Wadelius Drive**

Once again the administration and trustees of the Kelsey School Division, along with some members of the public, have been frustrated with the conditions of the road access to the Winton Pool area via Wadelius Drive.

The Kelsey School Division Board of Trustees does not have the equipment or the funds to maintain Wadelius Drive. The School Division has an agreement with the Town of The Pas for the road maintenance to be cost-shared.

From time to time grading of the roadway does take place, but Wadelius Drive has a drainage issue and this adversely affects the road condition each time it rains. The Kelsey School Division relies on local contractors and the Town of The Pas to provide road maintenance services.

Although the situation is not ideal, the School Division provides all the services that it can toward the maintenance of this roadway. It is the hope of the KSD that a more permanent solution can be found.
